

AdvanceIT is a team of people dedicated to providing Information Technology support, advice, services and technologies to both businesses and individuals at all levels. AdvanceIT prides itself in sharing knowledge by communicating information to the user at their level.

Location

AdvanceIT recognises the Narrabri area as having a need for quality IT support and services. In response to this need, AdvanceIT is now based out of Narrabri and covers surrounding areas including (but not limited to) Moree, Wee Waa and Gunnedah.

Who We Are

AdvanceIT consists of a multi-talented team of individuals, each with over 10 years of computing experience. The team possess knowledge in a broad range of IT areas including: Microsoft Applications and Operating Systems, Linux Platforms (predominantly Red Hat Enterprise Linux and derivatives), Web Application Development, Network Administration and Hardware and Software Maintenance. All AdvanceIT members have AQF Diploma level certifications and industry experience. Previous work experiences of members include network support for a local multi-branch company, teaching and network administration for the North Coast Institute of TAFE, PC Rollout for Southern Cross University, System Administration Aawsom Technologies, AwesomeNet Hosting (US) and RoyceSoftware.
